## INDEPENDENT AUDITOR'S REPORT

District Commissioners  
Comal County Emergency Services District No. 6

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities and the major fund of the Comal County Emergency Services District No. 6 (a component unit of Comal County), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Comal County Emergency Services District No. 6' basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

The Comal County Emergency Services District No. 6 management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and major fund of the Comal County Emergency Services District No. 6, as of December 31, 2018, and the respective change in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Other Matters***

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison as listed in the Table of Contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Comal County Emergency Services District No. 6 basic financial statement. The comparative statements are presented for the purpose of additional analysis and are not a required part of the financial statements.

The comparative statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects, in relation to the financial statements as a whole.

## MANAGEMENT’S DISCUSSION AND ANALYSIS

This section of Comal County Emergency Services District No. 6’ annual financial report presents our discussion and analysis of the District’s financial performance during the fiscal year ended December 31, 2018. Please read it in conjunction with the District’s financial statements, which follow this section.

### FINANCIAL HIGHLIGHTS

- The District’s total net position was \$2.7 million at December 31, 2018.
- During the year, the District’s expenses were \$69 thousand more than the \$1.7 million generated in taxes and other revenues from governmental activities.
- The total cost of the District’s programs increased \$438 thousand from last year due to increased fire protection costs to operate the new station at Bracken Volunteer Fire Department.
- The general fund reported a fund balance this year of \$1.9 million.

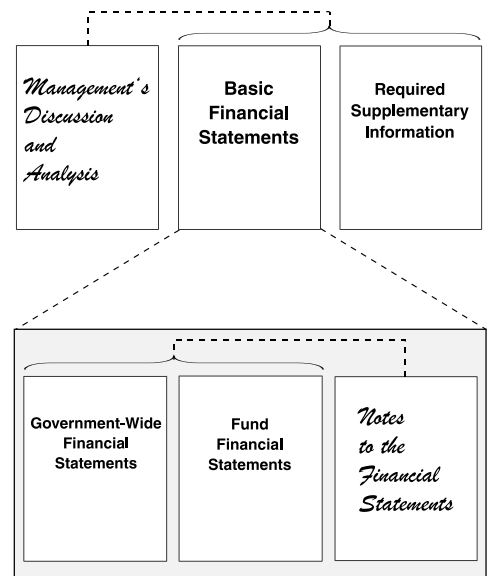

### OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—*management’s discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District’s overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District’s operations in more detail than the government-wide statements.
- *The governmental funds* statements tell how *general government* services were financed in the *short-term* as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

**Figure A-1, Required Components of the District’s Annual Financial Report**

Summary ↔ Detail

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis explains the structure and contents of each of the statements.

| <i>Type of inflow/outflow information</i>   | All revenues and expenses during year, regardless of when cash is received or paid                               | Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter |

### **Government-Wide Statements**

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net Position—the difference between the District's assets and liabilities—is one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's tax base.

The government-wide financial statements of the District include the *Governmental activities*. Most of the District's basic services are included here, such as Emergency Services and general administration. Property taxes finance most of these activities.

## Fund Financial Statements

The District has the following kinds of funds:

- *Governmental funds*—All of the District’s basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District’s programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

## FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position. The District’s combined net position was \$2.7 million at December 31, 2018. (See Table A-1).

## FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Revenues from governmental fund types totaled \$1.6 million, an increase of 1.9%. The increase in revenue is a result of increased property tax values and interest income.

### General Fund Budgetary Highlights

Over the course of the year, the District did not revise its original budget. Actual expenditures were \$50 thousand less than budget amounts.

Revenues were \$8 thousand less than the final budgeted amount, as property tax revenues were lower than expected.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

At the end of 2018, the District had invested a total of \$789 thousand, net of accumulated depreciation, in a broad range of capital assets, including land, buildings and improvements, vehicles and equipment.

### Long Term Debt

At year end the District had no outstanding long-term debt.

## ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- The property tax rate for the 2019 budget preparations decreased from \$0.069670 per \$100 valuation to \$0.072826 per \$100 valuation. The projected revenues for the 2019 budget preparation increased to \$1.7 million.
- General operating fund spending increased in the 2019 budget from \$1.6 million to \$1.7 million. The increase is primarily due to budgeted operational costs for fire protection.

These indicators were taken into account when adopting the general fund budget for 2019. Amounts available for appropriation in the general fund budget are \$1.73 million, an increase of 4.9% under the final 2018 actual revenue of \$1.65 million. Property taxes are expected to increase due to increased property values. The District will adjust expenditures to finance programs the District currently offers.

If these estimates are realized, the District's budgetary general fund balance is expected to increase to \$1.9 million.

## CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide Comal County Emergency Services District No. 6 citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. NOTES TO BASIC FINANCIAL STATEMENTS

COMAL COUNTY EMERGENCY SERVICES DISTRICT NO. 6  
NOTES TO BASIC FINANCIAL STATEMENTS  
DECEMBER 31, 2018

**NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The Comal County Emergency Services District No. 6 (a component unit of Comal County) is a political subdivision of the State of Texas and was created by the Comal County Commissioners' Court after a Public Election in 2003. The District was created to provide emergency services and promote public safety, welfare, health and convenience of persons residing in the District.

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below:

A. THE FINANCIAL REPORTING ENTITY

In evaluating how to define the government for financial purposes, management has considered all potential component units. The definition of the reporting entity is based primarily on the concept of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. Based on the foregoing criteria, there were no component units identified that would require inclusion in this report.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The **government-wide financial statements** include the statement of net position and the statement of activities. Government-wide statements report information on all of the activities of the District. Governmental activities are supported mainly by property taxes.

The statement of activities reflects the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included in program revenues are reported as general revenues.

Separate **fund financial statements** are provided for governmental funds. The General Fund meets the criteria of a **major governmental fund**. The District has no other governmental funds.

DECEMBER 31, 2018

**NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)**

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The **government-wide financial statements** are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenue types, which have been accrued, are revenue from the investments, intergovernmental revenue and charges for services. Property taxes are recognized in the year for which they are levied. Grants are recognized as revenue when all applicable eligibility requirements imposed by the provider are met.

Revenues are classified as *program revenues* and *general revenues*. Program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues include all taxes, grants not restricted to specific programs and investment earnings.

**Governmental fund level financial statements** are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Measurable and available revenues include revenues expected to be received within 60 days after the fiscal year ends. Receivables which are measurable but not collectible within 60 days after the end of the fiscal period are reported as deferred revenue. Property taxes which were levied prior to December 31, 2017, and became due January 1, 2018 have been assessed to finance the budget of the fiscal year beginning January 1, 2018.

Expenditures generally are recorded when an expense is incurred.

The government reports the following major governmental fund:

**The General Fund** is the general operating fund of the District and is always classified as a major fund. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include property taxes; sales taxes; and investment of idle funds. Primary expenditures are for general administration, emergency services and management.

The District has no other major governmental funds.

D. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash deposits and investments with a maturity date within three (3) months of the date acquired by the District.

COMAL COUNTY EMERGENCY SERVICES DISTRICT NO. 6  
NOTES TO BASIC FINANCIAL STATEMENTS (CONT.)  
DECEMBER 31, 2018

**NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)**

**E. INVESTMENTS**

State statutes authorize the District to invest in (a) obligations of the United States or its agencies and instrumentalities; (b) direct obligations of the State of Texas or its agencies; (c) other obligations, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States; (d) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent; (e) certificates of deposit by state and national banks domiciled in this state that are (i) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or, (ii) secured by obligations that are described by (a) - (d); or, (e). Statutes also allow investing in local government investment pools organized and rated in accordance with the Interlocal Cooperation Act, whose assets consist exclusively of the obligations of the United States or its agencies and instrumentalities and repurchase assessments involving those same obligations. The District has all its monies in interest bearing checking accounts, savings accounts, money market accounts or certificates of deposit. Earnings from these investments are added to each account monthly or quarterly.

The District reports investments at fair value based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

**F. ACCOUNTS RECEIVABLE**

Property taxes are levied based on taxable value at January 1 and become due October 1 and past due after the following January 31. Accordingly, receivables and revenues for property taxes are reflected on the government-wide statement based on the full accrual method of accounting. Property taxes receivable for prior year's levy is shown net of the allowance for doubtful accounts.

Sales taxes are reported based on sales and use transactions occurring within the borders of the District. Sales taxes are reported and payments are submitted monthly to the Texas Comptroller of Public Accounts, who releases the District's portion of revenues collected. Sales taxes receivable are reflected on the government-wide statement based on the full accrual method of accounting.

**G. CAPITAL ASSETS**

Capital assets, which include land, buildings and improvements, equipment and fire trucks, are reported in the government-wide financial statements. Capital assets (such as equipment) are defined as assets with a cost of \$1,000 or more. Capital assets are recorded at historical costs if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

 NOTES TO BASIC FINANCIAL STATEMENTS (CONT.)  
 DECEMBER 31, 2018

**NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)**

G. CAPITAL ASSETS (CONT.)

The costs of normal maintenance that do not add to the value of the asset or materially extend asset lives are not capitalized. Interest has not been capitalized during the construction period on property, plant, and equipment. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| ASSETS                   | YEARS  |
|--------------------------|--------|
| Buildings & Improvements | 1 - 21 |
| Vehicles                 | 7      |
| Equipment                | 5 - 7  |

H. UNAVAILABLE REVENUE

Property tax revenues are recognized when they become both measurable and available in the fund statements. Available means when due, or past due, and receivable within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Property tax revenues not expected to be available for the current period are reflected as unavailable revenue (a deferred inflow of resources).

Property taxes levied in October are used to finance the following calendar year and are also reflected as property taxes levied for future periods.

I. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District does not have any items that qualify for reporting in this category.

*Deferred inflows of resources* represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resource (revenue) until that time. Unavailable revenue is reported only in the governmental funds balance sheet under a modified accrual basis of accounting. Unavailable revenues from property tax receivables are deferred and recognized as an inflow of resource, the unavailable revenue will be recorded as a property tax revenue in the period the amounts become available.

J. FUND EQUITY

Fund balances in governmental funds are classified as follows:

Nonspendable – Represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid items) or legally required to remain intact.

COMAL COUNTY EMERGENCY SERVICES DISTRICT NO. 6  
NOTES TO BASIC FINANCIAL STATEMENTS (CONT.)  
DECEMBER 31, 2018

**NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)**

**J. FUND EQUITY (CONT.)**

Restricted – Represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed – Represents amounts that can only be used for a specific purpose determined by a formal action of the government’s highest level of decision-making authority. The District Board of Commissioners is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Assigned – Represents amounts which the District intends to use for a specific purpose but do not meet the criteria of restricted or committed. The District Commissioners may make assignments through formal documentation in the minutes. The District Commissioners are the only entities that may make assignments at this time.

Unassigned – Represents the residual balance that may be spent on any other purpose of the District.

When an expenditure is incurred for a purpose in which multiple classifications are available, the District considers restricted balances spent first, committed second, assigned third, and unassigned fourth.

**K. NET POSITION**

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

**L. USE OF ESTIMATES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**M. RECLASSIFICATIONS**

Certain reclassifications have been made to the prior periods presented to conform to the current presentation. These reclassifications had no effect on fund equity.

**NOTE 2 -- CASH AND CASH INVESTMENTS**

The District’s funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust with the District’s agent bank approved pledge securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank’s dollar amount of Federal Deposit Insurance Corporation (“FDIC”) insurance.

1. Cash

At December 31, 2018, the carrying amount of the District’s deposits in the bank was \$210,156 and the bank balance was \$222,933. All of the District’s cash was fully collateralized.

2. Investments

The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return.

The Public Funds Investment Act (“Act”) requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper.

The District had the following investments at December 31, 2018:

| <u>Investment Type</u>  | <u>Fair<br/>Value</u> |
|-------------------------|-----------------------|
| TexPool                 | \$ 902,930            |

Fair value measurement is measured by the District using the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted process in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 2 inputs are significant unobservable inputs. All of the District's investments carried at fair value are valued using quoted market prices (Level 1 inputs).

3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. **Credit Risk**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

b. **Custodial Credit Risk**

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At year end, the District was not exposed to custodial credit risk.

3. Analysis of Specific Deposit and Investment Risks

c. Concentration of Credit Risk

The risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to a concentration of credit risk.

d. Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year-end, the District was not exposed to interest rate risk.

e. Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

**NOTE 3 -- CAPITAL ASSETS**

Capital asset activity for the year ended December 31, 2018, was as follows:

|                                  | Balance<br>1/1/18 | Additions           | Adjustments<br>and<br>Disposals | Balance<br>12/31/18 |

**NOTE 4 -- AD VALOREM (PROPERTY) TAXES**

The District has contracted with the Comal County Tax Assessor-Collector to collect taxes on its behalf. Current year taxes become delinquent February 1. Current year delinquent taxes not paid by July 1 are turned over to attorneys for collection action.

COMAL COUNTY EMERGENCY SERVICES DISTRICT NO. 6  
NOTES TO BASIC FINANCIAL STATEMENTS (CONT.)  
DECEMBER 31, 2018

**NOTE 4 -- AD VALOREM (PROPERTY) TAXES (CONT.)**

For fiscal year 2018, the assessed tax rate for the District was \$0.069670 per \$100 on an assessed valuation of \$1,671,658,121. Legally, the District may assess up to \$0.10 per hundred on assessed valuations. Total tax levy for fiscal year 2018 was \$1,164,644. As of December 31, 2018, the delinquent current taxes for the 2017 levy were \$9,883. An allowance for uncollectible property taxes has not been established as of December 31, 2018, as management considers all amounts to be collectible.

**NOTE 5 -- LITIGATION**

Litigation

The District is not aware of any pending or threatened litigation.

**NOTE 6 -- CONCENTRATION OF EXPENDITURES**

For fiscal year 2018, the District paid the City of Schertz, EMS \$119,328 and Bracken Volunteer Fire Department \$1,345,550 for providing emergency services to the District, which combined was approximately 91.1% of the total expenditures of the District.

**NOTE 7 -- SERVICE PROVIDER AGREEMENT**

The District is currently engaged with the City of Schertz, Schertz EMS, to provide certain emergency medical services and emergency medical transport within the boundaries of the District. The District shall provide a quarterly payment to the City equal to one-quarter of the annual fee of \$14.03 per citizen located within the District's boundaries. The relationship between the City and the District is renewed annually, and may be terminated by either party during the annual renewal process.

The District is currently engaged with Bracken Volunteer Fire Department (a nonprofit fire department) designating the Department as the District's agent for providing fire suppression and extinguishment within the boundaries of the District. The District provides quarterly reimbursement of qualified expenditures to the Department based on expenditures and budgets approved by the District Commissioners. Title and ownership of all assets purchased with funds provided by the District are to remain with the Department until dissolution of the relationship between the Department and the District. Upon dissolution of the relationship between the Department and the District, title and ownership of all assets purchased with District funds will be transferred to the District or an entity determined by the District.

**NOTE 8 -- COMMITMENT**

In December 2018, the District approved a consulting services agreement for fire department renovations in the amount of \$71,700.
