

# Exhibit A

The Dec 2021 Interlocal Agreement stipulates that ESD No. 3 will provide first response to fire and EMS emergencies from Station 56, its new station just off SH 46 on South Cranes Mill Road. This will significantly improve Fire and EMS response as well as upgrade ISO ratings with impact to homeowner insurance premiums for fire coverage to citizens of ESD No. 6 along State Highway 46 on its eastern boundary. Note that the agreement does not change ESD boundaries.)
